

2024 CATALOG: CHILDREN'S

Good Morning,
Mother Nature
see page 3

Kids love animals and animal babies!

The Mamas and Babies series of board books is inspired by the belief that children are instinctively drawn to the natural world. That affection for the outdoors can be utilized to enhance learning. Each title in the series focuses on a specific type of habitat—forest, lake, mountain, or prairie—and introduces 10 North American animals commonly found in that habitat. Full-color photos provide a visual introduction to baby animals and their mothers, while short sentences offer neat-to-know information and serve as a gateway to reading for children ages 0–5. **PUB DATE: MARCH 2024**

Identify birds in your state

The Birding Children's Books are state-specific field guides designed specifically for children. They utilize a colorful design and an innovative, user-friendly format to make bird identification simple, informative, and fun. Written by award-winning author Stan Tekiela and featuring full-color photography, each book conveniently organizes birds—only species found in that state—by color. When young readers see a bird, they open the book to the correct color grouping, where every species gets a full-color photograph with a corresponding full-page description. As an added bonus, each book includes activities for the whole family, like building a birdhouse and preparing your own bird food.
