Regional books are profitable

AdventureKEEN is an independent publisher of nature and outdoor-activity books. Our company's founding dates back more than 40 years, guided then and now by the senses of wonder and discovery that come from spending time outdoors in beautiful places. It is our mission to share that wonder and the many opportunities for fun with our readers.

Statistically speaking, regional books have extremely low return rates and high customer satisfaction. To put it simply, AdventureKEEN creates products that customers want. So you get to spend more time selling and less time worrying about slow-moving items on your shelves. Regional books succeed by providing specific information to each market about its own area. We publish books about the birds, parks, trees, and hikes in your town.

Regional books are often quiet best-sellers. These titles routinely yield four, five, or six turns per year. That favorably stands up to or exceeds every other category. It's nice to have easy, obvious, low-maintenance books that sell and sell and sell by themselves.

Regional books give independent stores a way to highlight the fact that, yes, you are local. The presence of regional titles tells customers that you're plugged in to what they care about in your community. Every connection you make is another potential customer. Regional books provide opportunities to make such connections by providing a sense of place and by celebrating the local environment. When passersby see your regional titles on display, they stop and browse—the first step toward becoming your loyal customers.

If you wish to contact us at AdventureKEEN, please reach out any time.

Poachers Caught!

TOM CHAPIN, HAL RIME

Two conservation officers attempt to chase down a motorboat in their canoe. A married couple illegally catches more than 60,000 crappies over a 12-year span. A duo of poachers run over Tom Chapin's motorbike—and nearly kill him in the process. As a Minnesota game warden, Tom investigated hundreds of harrowing and exhilarating cases. In the *Poachers Caught!* series, he shares his most memorable ones with you.

Throughout his career, Tom wrote daily reports and took photos to enhance his records. So the stories are as realistic and factual as possible. Experience each riveting encounter as if you were there.

The tales of true crime are action-packed, shocking, and wildly entertaining. They appeal to anyone with an interest in hunting, fishing, and law enforcement, as well as anyone who's concerned about the protection of our natural resources. Tom's writing serves as a tool for educating people about poaching and for promoting ethics in nature. It also yields a heightened appreciation for the wildlife officers who protect our fish and wildlife resources.

He received awards for the 1978 Itasca County Law Enforcement Officer of the Year and the 1985 Minnesota Conservation Officer of the Year. Rattlesnake Bluff

A Sam Rivers Mystery

CARY J. GRIFFITH

The appearance of a rattlesnake wouldn't normally be enough to halt construction on an upscale housing development in Southeast Minnesota's bluff country. But this is no ordinary reptile; it's a rare eastern massasauga rattlesnake (EMR). The endangered snake has not been seen in the region for decades, so Sam Rivers is called in. As a special agent of the US Fish and Wildlife Service, Sam takes his responsibilities seriously—especially when it comes to protecting endangered species. If he finds EMR dens on the construction site, he'll close it permanently.

While the developers protest, Sam enlists the help of herpetologist Gina Larkspur. Together, they begin to find anomalies that call the entire situation into question. When Sam's wolfdog, Gray, tries to sniff out the EMR dens, it isn't rattlesnakes he finds. Instead, Gray discovers the remnants of a terrible, 25-year-old crime. Were the endangered species merely pawns in a diabolical cover-up? As Sam searches for the truth, bodies begin to pile up. He and his team must race to find answers before more innocents die.

CARY J. GRIFFITH

Award-winning author Cary J. Griffith grew up in eastern Iowa. His childhood fostered a love of wild places. Cary's books explore the natural world. In nonfiction, he covers the borderlands between civilization and wild places. In fiction, he focuses on the ways some people use flora and fauna to commit crimes, while others with more reverence for the natural world leverage their knowledge to bring criminals to justice. In both genres, readers are likely to learn something about our relationship to the natural world and the creatures that inhabit it.

Learn with coloring & activity books

Coloring can help children improve their concentration and creativity, and it can help build fine motor skills while increasing hand strength. The Color and Learn activity books make learning fun for children. Each activity book focuses on a specific region or a specific topic pertaining to the outdoors and nature. Within each 64-page book, a short paragraph of educational text appears on almost every page, paired with a black and white illustration to color, a maze, a word find, a dot-to-dot, or another interactive activity. Priced well below \$10, the Color and Learn activity books promise hours of child engagement.

Saturn V

Command and Service Modules: These carried the astronauts back to Earth.

Third Stage: This section boosted the rocket into orbit around the moon.

Second Stage: This section was 81 feet tall. It boosted the rocket to 114 miles up before detaching.

First Stage: This section was 130 feet tall. It boosted the rocket to 30 miles up before detaching.

The Saturn V (called the "Saturn Five") was the tallest and heaviest rocket ever built. It carried Apollo astronauts to the moon. To get astronauts there, the rocket needed three stages, each with its own engine. The actual Apollo spacecraft was perched at the top and was pretty small.

At 360 feet tall and 5 million pounds, the Saturn V was as long as a football field and as heavy as 385 elephants!
